Dear Art

25X1A

I have reviewed the disposition of the property from [redacted] location and I firmly believe that disposition of this property was in the best interest of the government. As you know we do not have any responsibility for property under Project 9730 or contact for the facilities contract. I recommend that this matter be resolved and/or accepted by [redacted] Office immediately.

I have not reviewed [redacted] items however, just as soon as a breather is encountered I will do so.

Dear Art,

25X1A Relative to our visit this week, I believe the recommendations contained in  letter (Reg. 9040-64-922) will complete the property termination and from my personal observation, this company has implemented sound plans which protect the government interests in all respects.

Dear Art,

1. Reference my visits to Boston of 16 Dec 1963 and 20 Jan 1964.
2. Material presented for review by and the undersigned 25X1A was divided in the following groups.
 - a. No value to depot.
 - b. Possible requirement by Depot, if in-house requirements are met.
 - c. Screen for in-house requirements if desired transfer at no cost.
 - d. Scrap to be disposed of by Contractor.
 - e. Recommend to be purchased by Contractor.
3. All items at the Crescent Street were reviewed and with the exception of the glass, scrap is recommended.
4. The four tab runs furnished by letter of 23 Jan 64, following the disposition recommendations of paragraph 2. To the best of my knowledge the disposition of property on these tab runs are to best interest of the government.

TO : Contracting Officer

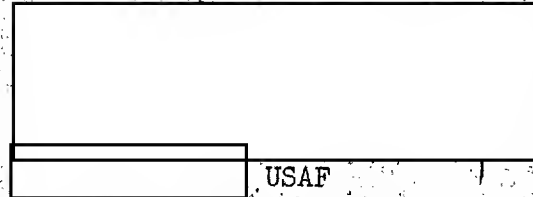

SUBJECT: Termination of LANYARD Contracts at ITEK Corporation

1. I have reviewed the percentage of completion of the work at the time of termination as set forth in ITEK's settlement of proposal.

2. In my opinion the percentage of completion of the work as set forth is a reasonable presentation of the facts as they existed at the time of termination.
